It is a collection of match games between the best players from the game. It is rated . Ubi Soft is best known for its highly successful Mario series. They are also known for popular puzzle and action games like Grim & Evil 3D, NetDimensions, and Chex Quest. Gameplay In Chessmaster 9000 there are six modes of play: single player (aka championship), two-player, three-player, four-player, five-player, and free play. The game is considered to be fairly easy and for beginners. The following is some of the gameplay: The interface is pretty much self explanatory: there are different menus to load, play, save, and quit.

One can choose to view the board, game history, tournament information, or quit. The board consists of a hexagonal grid which consists of 64 spaces. The player's board is colored black while the opponent's is colored white. Power ups can be found in certain positions, and each player can purchase special items from the game board. Each round consists of a series of five chess games, which can be single or double round robin. Each player starts with a standard hand of 9 cards. Each player may purchase cards or pawns from the game board with a shop where they can also make new moves, or, for the opponents cards, they can attack the player with the pawns. Some special items may be purchased from the shop; these include: one more time, fairy, fairy queen, pawn shield, health bonus, and goblin card. In each round, each player is dealt a hand of cards. The cards are dealt in the order starting with white and ending with black. The order of each color alternates.

After the five games are finished, the number of games to be played in the tournament is displayed as well as the time remaining. The player that has won the most games is the winner. The winner receives a nice certificate as well as an amount of coins, depending on how many
